Editori-in-Chief

Prof. Jun Ni
The University of Iowa, USA

Editorial Board

Dr. Vikas Agarwal
University of Pittsburgh, USA

Prof. Gang Cheng
University of Medicine and Dentistry of New Jersey, USA

Dr. Wing-Hoi Cheung
Chinese University of Hong Kong, China

Dr. Teja Guda
University of Texas San Antonio, USA

Dr. Daichi Hayashi
Boston University School of Medicine, USA

Dr. Muhammad Ramzan Saeed Ashraf Janjua
University of Sargodha, Pakistan

Dr. Edward Yungjae Lee
Harvard Medical School, USA

Dr. Shi Lin
Chinese University of Hong Kong, China

Dr. Hyunjin Park
Gachon University, South Korea

Dr. Pina Christine Sanelli
Weill Cornell Medical College, USA

Dr. Joseph M. Wallace III
Indiana University, USA

Dr. Defeng Wang
The Chinese University of Hong Kong, China
# TABLE OF CONTENTS

**Volume 2  Number 2  June 2013**

**Accuracy of Rapid Prototyping Biomodels Plotted by Three Dimensional Printing Technique: Ex Vivo Study**  
L. C. Safira, L. C. Bastos, V. E. Beal, R. A. de Azevedo, C. E. Francischone, V. A. Sarmento.................................41

**CT Scans in Primary Survey for Polytrauma Patients**  
P. Banerjee, S. Rudra, M. Ghosh, P. Panose.................................................................46

**Atypical Cystic Parotid Gland Acinic Cell Carcinoma in a Child**  
N. N. Chasen, P. Kalina........................................................................................................52

**Association of Renal Volume with the Degree of Aortic Contrast Enhancement in Abdominal CT**  
N. S. Muto, T. Kamishima, T. Sasaki, S. Terae, K. K. Tha, H. Shirato, K. T. Bae..........................................................55

**Repeatability of 3D OCT Pachymetry in Eyes with and without Contact Lens Induced Corneal Swelling**  
V. de Juan, A. B. Cisneros, R. Martin..............................................................................63

**Modified Maximum Likelihood Estimation of the Spatial Resolution for the Elliptical Gamma Camera SPECT Imaging Using Binary Inhomogeneous Markov Random Fields Models**  
S. Zimeras.........................................................................................................................68

---

The figure on the front cover is from the article published in Advances in Computed Tomography, 2013, Vol. 2, No. 2, pp. 63-67 by Victoria de Juan, Ana B. Cisneros and Raul Martin.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: act@scirp.org
Advances in Computed Tomography (ACT) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in all areas of computed tomography.

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by Advances in Computed Tomography (ACT) include but are not limited to:

- Abdominal and Pelvic CT
- Adverse Effects of CT
- Analysis of Mineral In-Growth in Scaffolds for Tissue Engineering (in Vitro and in Vivo)
- Cardiac CT Angiogram (CT Pulmonary Angiogram)
- CT Arthrography
- CT Conlonography and Virtual Colonoscopy
- CT-Guided Biopsy
- CT Optimization
- CT Studies in Bone
- Electron Beam Tomography
- Head/Neck CT
- High Resolution CT
- High-Resolution Peripheral Quantitative CT
- In Vivo CT for Studies of Bone Remodeling Dynamics
- MicroCT and Synchrotron CT Based Analysis of Bone Micro-Architecture and Mineralization (in Vitro)
- Microtomography
- Multidetector CT (MDCT)
- PET/CT
- pQCT Analysis of Architecture in Larger Rodents
- Reduction of Artifacts of CT Derived from Implants
- Spiral Computed Tomography
- Synchrotron-Based Analyses of Lacunar-Canilicular Networks and Bone Damage Accrual and Propagation
- Thoracic CT
- Whole Body Imaging (Full-Body CT Scan)

Notes for Intending Authors

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.
