Table of Contents

Volume 9  Number 4  April 2018

The Fourier Transform and Principles of Quantum Mechanics
D. T. Si. .................................................................347

Pulsed Laser Heating of a Finite Silver Selenide Slab Using (HHCE) Model
M. A. K. EL-Adawi, S. A. Shalaby.................................................................355

Generated Sets of the Complete Semigroup Binary Relations Defined by Semilattices of the Class $\Sigma_8 (X, n + k + 1)$
Y. Diasamidze, O. Givradze, N. Tsinaridze, G. Tavdgiridze..................................................369

A New Proof of the Existence of Suitable Weak Solutions and Other Remarks for the Navier-Stokes Equations
E. Fernández-Cara, I. Marín-Gayte.................................................................383

Forecasting Alzheimer’s Disease Using Combination Model Based on Machine Learning
H. Li, Y. H. Wu, Y. N. Zhang, T. Wei, Y. F. Gui.................................................................403

Models of Cancer Growth Revisited
J. C. Larsen.................................................................418

Comparison between the Laplace Decomposition Method and Adomian Decomposition in Time-Space Fractional Nonlinear Fractional Differential Equations
M. Z. Mohamed, T. M. Elzaki.................................................................448

Operator Product Formula for a Special Macdonald Function
L. F. Wang, K. Wu, J. Yang.................................................................459
Applied Mathematics (AM)

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: am@scirp.org
**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
