# TABLE OF CONTENTS

## Volume 2 Number 3  
**August 2011**

### Neural Modeling of Multivariable Nonlinear Stochastic System. Variable Learning Rate Case
A. Errachdi, I. Saad, M. Benrejeb ................................................................. 167

### Identification and Adaptive Control of Dynamic Nonlinear Systems Using Sigmoid Diagonal Recurrent Neural Network
T. Aboueldahab, M. Fakhreldin ................................................................. 176

### Continuous Stabilizing of First Order Single Input Nonlinear Systems
A. Shahmansoorian ................................................................. 182

### An Anti-lock-Braking Systems (ABS) Control: A Technical Review
A. A. Aly, El-S. Zeidan, A. Hamed, F. Salem ................................................................. 186

### Autonomous Target Interception Using Hybrid Sensor Networks
W. Z. Zhang, Y. H. Wang, Y. Li, M. L. Li ................................................................. 196

### H∞ Finite-Time Control for Switched Linear Systems with Time-Varying Delay
H. Liu, Y. Shen ................................................................. 203

### Motor Learning Based on the Cooperation of Cerebellum and Basal Ganglia for a Self-Balancing Two-Wheeled Robot
X. G. Ruan, J. Chen, L. Z. Dai ................................................................. 214

### Nonlinear Multiple Model Predictive Control of Solution Polymerization of Methyl Methacrylate
M. Abbaszadeh ................................................................. 226

### Fuzzy PID Controllers Using FPGA Technique for Real Time DC Motor Speed Control
B. Hamed, M. Al-Mobaied ................................................................. 233

### Self-Structured Organizing Single-Input CMAC Control for De-icing Robot Manipulator
T. Ngo, Y. N. Wang, Y. H. Chen, Z. Xiao ................................................................. 241

### Parameter Identification and Controller Design for the Velocity Loop in Motion Control Systems
R. Neugebauer, S. Hofmann, A. Hellmich, H. Schlegel ................................................................. 251

### A Neural Fuzzy System for Vibration Control in Flexible Structures
X. X. Ji, W. Wang ................................................................. 258

Intelligent Control and Automation (ICA)

ISSN: 2153-0653 (Print), 2153-0661 (Online)
http://www.scirp.org/journal/ica

Intelligent Control and Automation is an open access, peer-reviewed and fully refereed journal focusing on theories, methods and applications in intelligent control and automation. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of intelligent control and automation.

Editor-in-Chief
Prof. Theodore B. Trafalis
University of Oklahoma, USA

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Adaptive Controls
- Advanced Control Algorithms and Applications
- Artificial Intelligence and Knowledge Engineering
- Automation System
- Autonomous Systems
- Complex Systems and Intelligent Robots
- Complex Systems, Logistics, and Supply Chain
- Computational Intelligence and Applications
- Control Theory and Control Engineering
- Cooperative Controls (Agent Based Systems)
- Distributed Parameter Systems
- Dynamic Data Driven Application Systems in Intelligent Control
- Ecosystems and Control
- Electronic Commerce and Office Automation
- Hybrid Systems
- Industrial Automation and On-line Monitoring
- Integrated and Complex Automation Systems
- Intelligent Automation and Manufacturing
- Intelligent Control Theory and Applications
- Intelligent Management and Decision Making
- Mechanical Engineering and Automation
- Modeling, Identification, and Fault Diagnosis
- Navigation Control Theory and Applications
- Network Intelligence and Network Control
- Optimization
- Power Systems and Automation
- Robotics, Service and Medical Robotics
- Soft Computing
- Systems and Control Theory and Applications
- Systems Engineering and Engineering Optimization
- Water and Natural Resource Management

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the ICA.

Notes for Intending Authors

Submitted papers should not be previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers will be peer reviewed. For more details about the submission, please access the website.
