Nutrient Enrichment and Saline Conditions Decreases Growth and Photosynthesis of the Mangrove *Heritiera littoralis* Dryand

M. M. Mangora………………………………………………………………………………………………………………………………………………...293

Effects of Sudden Stratospheric Warming Events on the Distribution of Total Column Ozone over Polar and Middle Latitude Regions

V. Madhu…………………………………………………………………………………………………………………………………………………………302

Modeling of the Changes in Flow Velocity on Seawalls under Different Conditions Using FLOW-3D Software

M. Deilami-Tarifi, M. Behdarvandi-Askar, V. Chegini, S. Haghighi-Pour…………………………………………………………………………317

Preliminary Assessment of Fish Aggregating Devices (FADs) in the North and South Coast of Kenya

F. Mzingirwa, M. Najya, M. Elizabeth, C. Muthama, P. Musembi……………………………………………………………………………..323

*Tubastraea coccinea*: A Non-Indigenous Coral (Cnidaria, Scleractinia) Collected at Arvoredo Island, South of Brazil with Potential MRSA and VRE Antimicrobial Activity

The figure on the front cover is from the article published in Open Journal of Marine Science, 2016, Vol. 6, No. 2, pp. 283-292 by Yuri Ya. Latypov.

DISCLAIMER OF LIABILITY

Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ojms@scirp.org
Open Journal of Marine Science (OJMS) is an international journal dedicated to the latest advancement of marine science. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of marine science. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy.

Editor-in-Chief
Prof. David Alberto Salas-de-León National Autonomous University of Mexico, Mexico

Subject Coverage
The journal publishes original papers including but not limited to the following fields:

- Estuarine and Coastal Marine Science
- Marine and Freshwater Ecosystems
- Marine and Petroleum Geology
- Marine Biodiversity
- Marine Biology
- Marine Biotechnology
- Marine Chemistry
- Marine Drugs
- Marine Ecology
- Marine Environmental Research
- Marine Genomics
- Marine Geology
- Marine Geophysical Researches
- Marine Mammal Science
- Marine Micropaleontology
- Marine Models
- Marine Policy
- Marine Pollution
- Marine Structures
- Marine Systems
- Molecular Marine Biology and Biotechnology

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
