The original online version of this article (Vaccaro, J.A., Safina, D., Grunspan, L. and Huffman, F.G. (2014) Dietary Quality and Comorbidities of Adults at Medical Risk for Diabetes. *Open Journal of Preventive Medicine*, 4, 138-144. <http://dx.doi.org/10.4236/ojpm.2014.44019>) unfortunately contains a mistake. The authors wish to correct the errors in Table 4, page 142: P-value for the variable Special diet (yes) should read 0.081. And they added (yes) after Special diet for clarity. They moved Race/ethnicity up and presented it without an OR, for clarity.
