Editorial Board

Dr. Kamran Akbarzadeh  
Tehran University of Medical Sciences, Iran

Dr. Jeyasankar Alagarmalai  
A. A. Govt. Arts College, India

Dr. Margaret L. Allen  
Biological Control of Pests Research Unit, USA

Prof. Francesco Andrietti  
University of Milan, Italy

Dr. Tapan Kumar Barik  
Berhampur University, India

Dr. Kathirvelu Baskar  
Bioscience Research Foundation, India

Dr. Emanu Getu Degaga  
Addis Ababa University, Ethiopia

Dr. Harsimran Kaur Gill  
University of Florida, USA

Dr. Gaurav Goyal  
University of Florida, USA

Dr. Xiao-Xia Liu  
China Agricultural University, China

Dr. Angeliki F. Martinou  
Cyprus University of Technology, Cyprus

Dr. Richard T. Mayer  
University of Georgia, USA

Dr. I. S. Ndams  
Ahmadu Bello University, Nigeria

Dr. Nonito Pagès  
Centre de Recerca en Sanitat Animal, Spain

Dr. Muhammad Ather Rafi  
National Agricultural Research Center, Pakistan

Dr. Chandrasekar Raman  
Kansas State University, USA

Dr. Marta I. Saloña-Bordas  
University of the Basque Country, Spain

Dr. Meera Srivastava  
Government Dungar College, India

Dr. Everton Tizo-Pedroso  
State University of Goiás, Brazil

Dr. Sampath Walgama  
Agriculture and Agri-Food Canada, Canada
Table of Contents

Volume 3 Number 2 April 2015

Hyperparasitism of Homona coffearia Nietn. (Lepidoptera: Tortricidae), the Tea Tortrix of Sri Lanka: Implications for Biological Control
R. S. Walgama........................................................................................................................................33

Effectiveness of Beauveria bassiana Native Isolates in the Biological Control of the Mediterranean Fruit Fly (Ceratitis capitata)
F. O. Qazzaz, M. I. Al-Masri, R. M. Barakat..........................................................................................44

Effect of Cyantraniliprole on Feeding Cessation of Q Biotype Bemisia tabaci (Gennadius) (Hemiptera: Aleyrodidae)

Interactions among Tamarix (Tamaricaceae), Opsius stactogalus (Cicadellidae), and Litter Fungi Limit Riparian Plant Establishment
G. M. Siemion, L. E. Stevens..................................................................................................................65

The figure on the front cover is from the article published in Advances in Entomology, 2015, Vol. 3, No. 2, pp. 65-81 by Gibney M. Siemion, Lawrence E. Stevens.

DISCLAIMER OF LIABILITY

Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ae@scirp.org
Advances in Entomology (AE) is an openly accessible journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in the research of entomology.

**Subject Coverage**

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The areas covered by Advances in Entomology (AE) include but are not limited to the following fields:

- Agricultural Entomology
- Chemical Protection of Plants
- Culture Entomology
- Entomological Biology
- Entomological Ecology
- Entomological Ethology
- Entomological Morphology
- Entomological Pathology
- Entomological Taxonomy
- Entomological Toxicology
- Forensic Entomology
- Forest Entomology
- Medical Entomology
- Palaeoentomology
- Pest Bio-Control
- Physiological Entomology
- Technical Entomology
- Urban Entomology

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

**Notes for Intending Authors**

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically from the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

**Website and E-Mail**

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
