Subject Coverage
This journal invites original research and review papers that address the following issues in operations research. Topics of interest include, but are not limited to:

1. Operations Research and Optimization Theory and Research
   Technical Approaches
   Computational Intelligence and Information Management
   Continuous Optimization
   Decision Support Systems, Multi-Criteria Decision Methods
   Discrete Optimization
   Expert Systems
   Heuristics
   Mathematical Programming
   Networks
   Queues
   Simulation
   Stochastic Models and Statistics
   Time Series Analysis

2. Manufacturing and Service Operations Research
   Forecasting
   Inventory
   Location
   Logistics, Transportation, Warehousing and Maintenance
   Planning and Scheduling
   Product and Service Design

3. Interfaces with Other Disciplines
   Community Operations Research
   Complex Systems
   Education Operations Research
   Environmental and Energy Issues
   Financial Engineering
   Government Operations Research
   Health Services Operations Research
   Marketing Science
   Military and Homeland Security
   Operations Research in Nonprofit Organization
   Policy Modeling and Public Sector OR
   Productivity and Efficiency in the Public Sector
   Sports Operations Research
   Telecommunications and Networking

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the AJOR.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
