Influence of Bavistin and Silver Thiosulphate on in Vitro Regeneration of Asclepias curassavica (L.) Using Nodal Explants
S. H. Reddy, M. Chakravarthi, K. N. Chandrashekara, C. V. Naidu ................................................................. 941

Improving Effect of Salicylic Acid on the Multipurpose Tree Ziziphus spina-christi (L.) Willd Tissue Culture
A. Galal ................................................................................................................................................................. 947

The Effects of Sugars and Ethylene on Apospory and Regeneration in Ceratopteris richardii
L. T. Bui, A. Hurst, E. E. Irish, C.-L. Cheng ......................................................................................................... 953

Phosphorus Release from Sediments in a Riparian Phragmites australis Community at the Estuary of the Chikugogawa River, Western Japan
A. Haraguchi ....................................................................................................................................................... 962

Water Stress Effects on Leaf Growth and Chlorophyll Content but Not the Grain Yield in Traditional Rice (Oryza sativa Linn.) Genotypes of Assam, India II. Protein and Proline Status in Seedlings under PEG Induced Water Stress
J. Chutia, S. P. Borah ........................................................................................................................................... 971

Introgression the Salinity Tolerance QTLs Saltol into AS996, the Elite Rice Variety of Vietnam
L. T. N. Huyen, L. M. Cuc, A. M. Ismail, L. H. Ham ................................................................................................. 981

Alkaloids, Limonoids and Phenols from Meliaceae Species Decrease Survival and Performance of Hypsipyla grandella Larvae
J. Pérez-Flores, S. D. Eigenbrode, L. Hilje-Quiroz .................................................................................................. 988

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ajps@scirp.org
American Journal of Plant Sciences (AJPS) is a peer reviewed international journal dedicated to the latest advancement in related areas. The goal of this journal is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties.

Editor-in-Chief
Dr. Sukumar Saha  
US Department of Agriculture, USA

Subject Coverage
This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Agricultural Botany
- Agronomy
- Bryology
- Dendrochronology
- Economic Botany
- Ethnobotany
- Forestry
- Horticulture
- Integrated Pest Management and Integrated Resistant Management
- Lichenology
- Medicinal Plants
- Paleobotany
- Palynology
- Phycology
- Phylogenetics and Evolution
- Phytochemistry
- Phytopathology
- Plant Anatomy
- Plant Based Biofuels and Bioenergy
- Plant Biotechnology and Tissue Culture
- Plant Breeding
- Plant Cytogenetics and Cytology
- Plant Ecology
- Plant Genetic Resources and Databases
- Plant Genetics
- Plant Genomes, Bioinformatics and Genomics
- Plant Host-Pathogen Interactions
- Plant Molecular Biology and Evolution
- Plant Morphology
- Plant Nutrition
- Plant Physiology
- Plant Polyploidy
- Plant Protection
- Plant Proteomics and Metabolomics
- Plant Systematics
- Transgenic Crops and Their Products

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of AJPS.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

TABLE OF CONTENTS

Volume 3 Number 7 July 2012

Effects of Stratification and Hormone Treatments on Germination and Physio-Biochemical Properties of Taxus chinensis var. maiirel Seed
Y. J. Zhang, S. B. Lu, H. D. Gao................................................................. 829

Production and Optimization of Pseudomonas fluorescens Biomass and Metabolites for Biocontrol of Strawberry Grey Mould
W. M. Haggag, M. A. El Soud................................................................. 836

Weed Control, Environmental Impact and Profitability of Pre-Plant Incorporated Herbicides in White Bean
N. Soltani, R. E. Nurse, C. Shropshire, P. H. Sikkema................................................................. 846

In Situ Conservation of Wild Rice Populations: A Targeted Study of Common Wild Rice Oryza rufipogon from China

M. Bunyan, S. Jose, R. Fletcher................................................................. 869

Not All Shrivels Are Created Equal—Morpho-Anatomical and Compositional Characteristics Differ among Different Shrivel Types That Develop during Ripening of Grape (Vitis vinifera L.) Berries
B. R. Bondada, M. Keller................................................................. 879

Obtaining the Minimum Lethal Dose against Fasciola hepatica in Vitro Using Plant Extract Hexanes with Fasciolicide Activity and Toxicity Evaluation on CD1 Male Mice
S. Ibarra-Moreno, F. Ibarra-Velarde, J. G. Avila-Acevedo................................................................. 899

An Efficient Method for Plant Regeneration from Calli of Svertia muscatii, an Endangered Medicinal Herb
T. He, J. Xu, L. Yang, H. T. Wang................................................................. 904

Pollen of Bauhinia L. and Phanera Lour. (Leguminosae-Caesalpinioideae) from the Brazilian Caatinga
F. de A. R. dos Santos, D. de M. Novaes, L. P. de Queiroz................................................................. 909

Morphological Patterns of a Hymenopteran Gall on the Leaflets of Caryocar brasiliense Camb. (Caryocaraceae)

Improved Clonal Propagation of Alpinia calcarata Rosc., a Commercially Important Medicinal Plant and Evaluation of Chemical Fidelity through Comparison of Volatile Compounds
C. G. Sudha, M. George, K. B. Rameshkumar, G. M. Nair................................................................. 930

Influence of Bavistin and Silver Thiosulphate on in Vitro Regeneration of Asclepias curassavica (L.) Using Nodal Explants
S. H. Reddy, M. Chakrabarti, K. N. Chandrasekara, C. V. Naidu................................................................. 941

Improving Effect of Salicylic Acid on the Multipurpose Tree Ziziphus spina-christi (L.) Willd Tissue Culture
A. Galal................................................................. 947

The Effects of Sugars and Ethylene on Apospory and Regeneration in Ceratopteris richardii
L. T. Bui, A. Hurst, B. C. Irish, C.-L. Cheng................................................................. 953

Phosphorus Release from Sediments in a Riparian Phragmites australis Community at the Estuary of the Chikugowara River, Western Japan
A. Haraguchi................................................................. 962

Water Stress Effects on Leaf Growth and Chlorophyll Content but Not the Grain Yield in Traditional Rice (Oryza sativa Linn.) Genotypes of Assam, India II. Protein and Proline Status in Seedlings under PEG Induced Water Stress
J. Chutia, S. P. Borah................................................................. 971

Introgression the Salinity Tolerance QTLs Sa7tol into AS996, the Elite Rice Variety of Vietnam
L. T. N. Huyen, L. M. Cuc, N. M. Ismail, L. H. Ham................................................................. 981

Alkaloids, Limonoids and Phenols from Meliaceae Species Decrease Survival and Performance of Hippisylia grandella Larvae
J. Pérez-Flores, S. D. Eigenbrode, L. Hilje-Quiroz................................................................. 998
