Editors-in-Chief

Prof. Mubariz Garayev                 King Saud University, Saudi Arabia
Prof. Qing-Wen Wang                  Shanghai University, China

Editorial Board

Prof. Ibraheem Alolyan               King Saud University, Saudi Arabia
Dr. Airat M. Bikchentaev             Kazan Federal University, Russia
Prof. Liangyun Chen                  Northeast Normal University, China
Prof. Xiaochun Fang                  Tongji University, China
Dr. Mehmet Gürdal                    Süleyman Demirel University, Turkey
Prof. Tingzhu Huang                  University of Electronic Science and Technology of China, China
Prof. S. Krishnamoorthy              Government Arts College, India
Prof. Jia Li                         University of Alabama in Huntsville, USA
Prof. Wen Li                         South China Normal University, China
Dr. Nicola Mastronardi               Italian National Research Council, Italy
Prof. Salah Mechéri                  Taibah University, Saudi Arabia
Prof. Manuela Rodrigues              University of Aveiro, Portugal
Prof. Ahmet Sahiner                  Suleyman Demirel University, Turkey
Prof. Saburou Saitoh                 University of Aveiro, Portugal
Prof. Morteza Seddighin              Indiana University East, USA
Dr. Dan Wang                         Shenyang University, China
Dr. Cheng-Tang Wu                    Livermore Software Technology Corporation, USA
Dr. Maria Zeltser                     Tallinn University, Estonia
Table of Contents

Volume 4  Number 1  March 2014

Parallel Multicore CSB Format and Its Sparse Matrix Vector Multiplication
B. Yang, S. Gu, T.-X. Gu, C. Zheng, X.-P. Liu.................................................................1

The Better Accuracy of Strassen-Winograd Algorithms (FastMMW)
P. D’Alberto..........................................................................................................................9

The Cartan Invariant Matrix for the Finite Group \( G_2(13) \) of Type \( G_2 \)
Y. W. Hu, W. Jiang...............................................................................................................40
Advances in Linear Algebra & Matrix Theory (ALAMT)

Advances in Linear Algebra & Matrix Theory

ISSN 2165-333X (print)  ISSN 2165-3348 (online)
www.scirp.org/journal/alamt

Advances in Linear Algebra & Matrix Theory (ALAMT) is an international journal dedicated to the latest advancement of linear algebra. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Linear Algebra.

Editors-in-Chief
Prof. Mubariz Garayev
Prof. Qing-Wen Wang
King Saud University, Saudi Arabia
Shanghai University, China

Editorial Board
Prof. Ibraheem Aloiyan

Prof. Xiaochun Fang
Dr. Mehmet Gürdal
Prof. Tingzhu Huang
Prof. S. Krishnamoorthy
Prof. Jia Li
Prof. Wen Li
Dr. Nicola Mastronardi
Prof. Salah Mecheri
Prof. Manuela Rodrigues
Prof. Ahmet Sahiner
Prof. Sabrou Saitoh
Prof. Morteza Seddighin
Dr. Dan Wang
Dr. Cheng-Tang Wu
Dr. Maria Zeitser
King Saud University, Saudi Arabia
Kazan Federal University, Russia
Northeast Normal University, China
Tongji University, China
Süleyman Demirel University, Turkey
University of Electronic Science and Technology of China, China
Government Arts College, India
University of Alabama in Huntsville, USA
South China Normal University, China
Italian National Research Council, Italy
Taibah University, Saudi Arabia
University of Aveiro, Portugal
Suleyman Demirel University, Turkey
University of Aveiro, Portugal
Indiana University East, USA
Shenyang University, China
Livermore Software Technology Corporation, USA
Tallinn University, Estonia

Subject Coverage
The journal publishes original papers including but not limited to the following fields:

- Linear Algebra and Its Applications
- Linear Algebra in Engineering and Computing
- Matrix Theory and Its Applications
- Numerical Linear Algebra with Applications
- Solutions of Linear Equations
- Special Types of Matrices
- Spectral Theory

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submission, please access the website.

Website and E-mail

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
