Table of Contents

Volume 5  Number 13  July 2014

Functional Characterization of Bifidobacteria of Human Origin: A Case Study by the Students of Food Science and Technology of the University of Foggia (Southern Italy)
  .................................................................................................................. 1153

Chemical Properties of Pectin from Industry Hot and Cold Break Tomato Products
  H. H. Chong, S. Simsek, B. L. Reuhs
  .................................................................................................................. 1162

Structure and Performance of the Retail Outlets of Honey in the Kingdom of Saudi Arabia
  A. A. Al-Ghamdi, A. Zulail, N. Adgaba
  .................................................................................................................. 1168

Analysis of the Fatty Acids and Phenolic Compounds in a Cereal-Based Fermented Food (Tarhana)
  M. Ovando-Martinez, O. Daglioglu, K. G. Guner, U. Gecgel, S. Simsek
  .................................................................................................................. 1177

Effects of Planting Methods and Seed Density on Vegetable Yield and Nutrient Composition of Solanum macrocarpon and Solanum scabrum in Southwest Nigeria
  .................................................................................................................. 1185

Breast Milk Micronutrients in Lactating Mothers from Ribeirão Preto (SP), Brazil
  .................................................................................................................. 1196

Antihypertensive Properties on Spontaneously Hypertensive Rats of Peptide Hydrolysates from Silkworm Pupae Protein
  W. Wang, N. Wang, Y. Zhang
  .................................................................................................................. 1202

Flavonoids Loaded in Nanocarriers: An Opportunity to Increase Oral Bioavailability and Bioefficacy
  A. R. Bilia, B. Isacchi, C. Righeschi, C. Guccione, M. C. Bergonzi
  .................................................................................................................. 1212

Fermented Milk Products from Different Milk Types
  O. Ladokun, S. Oni
  .................................................................................................................. 1228

Apple as a Source of Dietary Phytonutrients: Bioavailability and Evidence of Protective Effects against Human Cardiovascular Disease
  G. Ferretti, I. Turco, T. Bacchetti
  .................................................................................................................. 1234

Are Family Table Foods Appropriate for Infants? Comparing the Nutritional Quality of Homemade Meals Adapted from the Family’s Table Foods and Those Specially Prepared for Infants
  P. Ribeiro, D. M. Sigulem, T. B. Morais
  .................................................................................................................. 1247
Induction of Necrotizing Enterocolitis in Non-Premature Sprague-Dawley Rats and the Effect of Administering Breast Milk-Isolated *Lactobacillus salivarius* LPLM-O1

A Study on Tomato Candy Prepared by Dehydration Technique Using Different Sugar Solutions

Citrus Pulp in Concentrates for Horses

R. A. Brandi, A. M. O. Tribucci, J. C. C. Balieiro, R. M. Hoffman, I. C. S. Bueno...............................................................1272

Antioxidant Effects of Alperujo Extract (Arbequina and Frantoio Varieties) on MIN6 β-Cells Subjected to Stress with Glucose or H₂O₂

C. González, M. Andrews, E. Leiva, C. Quispe, M. Arredondo............................................................1280

Organochlorine Pesticides in Infant Milk Formulas Marketed in the South of Mexico City

R. G. Tolentino, S. V. León, B. S. Bermúdez, G. P. Flores, M. de Lourdes Ramírez Vega, C. R. Vázquez,
M. R. Vázquez, M. V. Francisca.........................................................................................................................1290

The figure on the front cover is from the article published in Food and Nutrition Sciences, 2014, Vol. 5, No. 13, pp. 1261-1271 by Md. Hasanuzzaman, *et al.*

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: fns@scirp.org
Food and Nutrition Sciences (FNS) is a peer reviewed international journal dedicated to the latest advancement in related areas. The goal of this journal is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties.

Subject Coverage

All manuscripts submitted to FNS must be previously unpublished and may not be considered for publication elsewhere at any time during FNS’s review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. Topics to be covered by this journal include, but are not limited to:

- Animal Nutrition
- Antioxidants and Phytochemicals in Food
- Byproducts Processing and Utilization
- Calorie Intake and Consumption
- Carbohydrates and Fibers
- Clinical Nutrition
- Consumer Choice, Preferences, and Concerns
- Diets and Diseases
- Eating Disorders
- Food Chemistry, Engineering and Microbiology
- Food Conservation and Preparation
- Food Machinery
- Food Packaging
- Food Processing Technology
- Food Safety and Hygiene
- Food Science and Technology
- Grain and Oil Engineering
- Healthy Eating Initiatives
- Hormonal Regulations
- Malnutrition
- Maternal and Infant Nutrition
- Metabolism and Nutrition Physiology
- Molecular Gastronomy
- Nutrient Metabolism
- Nutrition and Immunology
- Obesity
- Proteins and Amino Acids
- Public Health Nutrition
- Sensory Analysis
- Sports Nutrition
- Vitamins and Minerals

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of FNS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
