Editor-in-Chief
Prof. Valentine Udoh James  Clarion University of Pennsylvania, USA

Editorial Board
Dr. Riccardo Buccolieri  University of Salento, Italy
Prof. Jianmin Chen  Fudan University, China
Prof. Peter G. Flood  University of New England, Australia
Prof. Yehia Hafez  King Abdulaziz University, Saudi Arabia
Prof. Benedict Ilozor  Eastern Michigan University, USA
Prof. Sabah A. Ismail  University of Kirkuk, Iraq
Prof. M. A. Khalifa  Menoufia University, Egypt
Dr. Juan Ma  Fayetteville State University, USA
Dr. Amirhomayoun Saffarzadeh  Kyushu University, Japan
Prof. V. I. Solomatlin  Russian Academy of Nature Science, Russia
Dr. Mustafa Din Subaru  Universiti Teknologi Malaysia, Malaysia
Prof. Leiming Yin  Chinese Academy of Sciences, China
Dr. Xiaochnun Zhang  Carnegie Institution for Science, USA
Prof. Qixing Zhou  Nankai University, China
# Table of Contents

**Volume 4   Number 1  January 2016**

Simulation of Runoff and Sediment Yield for a Kaneri Watershed Using SWAT Model  
V. A. Swami, S. S. Kulkarni                                                                                           1

Assessment of Physicochemical Characteristics of Sediment from Nwaja Creek, Niger Delta, Nigeria  
A. A. Adesuyi, M. O. Ngwoke, M. O. Akinola, K. L. Njoku, A. O. Jolaoso                                              16

Correlations between Geo-Chemical Speciation of Heavy Metals (Cu, Zn, Pb, Cd and Ni) in Surface Sediments and Their Concentrations in Giant Mudskipper (*Periophthalmodon schlosseri*) Collected from the West Coast of Peninsular Malaysia  
T. R. Buhari, A. Ismail                                                                                                 28

Kinetics of Sorption of Pendimethalin on Soil Samples Obtained from the Banks of Rivers Katsina-Ala and Benue, Central Nigeria  
J. Kpagh, R. Sha’Ato, R. A. Wuana, T. A. Tor-Anyiin                                                                37

Irrigation Demand VS Supply-Remote Sensing and GIS Approach  
C. R. Naidu, M. V. S. S. Giridhar                                                                                     43

Quantification of River Bank Erosion and Bar Deposition in Chowhali Upazila, Sirajganj District of Bangladesh: A Remote Sensing Study  
M. S. Hassan, S. Mahmud-ul-islam                                                                                      50

Exploratory Analyses for Water Quality of the Gulf of Mexico Basin, Texas, 2005-2014  
F. Anderson, N. N. J. Al-Thani                                                                                       58

Major and Trace Element Characterization of Shallow Groundwater in Coastal Alluvium of Chidambaram Town, Cuddalore District, South India  
T. J. R. Kumar, C. Dushiyanthan, B. Thiruneelakandan, R. Suresh, S. V. Raja, M. Senthilkumar                          64

Hydrological Modelling of Sidi Jabeur Watershed (Morocco) Using Spatially Distributed Model ATHYS  
M. Khattati, M. Serroukh, I. Rafik, H. Mesmoudi, B. Hassane, Y. Bouslihim                                            77

Triangle Method for Estimating Soil Surface Wetness from Satellite Imagery in Allahabad District, Uttar Pradesh, India  
A. A. Kasim, A. A. Usman                                                                                              84
Microbial Community from MTBE-Contaminated Soil for Aerobic Biodegradation of MTBE
B. Montazeri, M. H. Sarrafzadeh

Analysis of Mountain Rangeland Changes, Using Remotely-Sensed Data, (Case Study: Dehdez Area, Iran)
A. A. Torahi, E. Manuchehri

Modelling Soil Erosion and Sedimentation in the Oued Haricha Sub-Basin (Tahaddart Watershed, Western Rif, Morocco): Risk Assessment

Assessment of Calcimetric and Titrimetric Methods for Calcium Carbonate Estimation of Five Soil Types in Central Sudan
J. T. Elfaki, M. O. Gafei, M. M. Sulieman, M. E. Ali

Aeolian Dust Forecast in Arid and Semiarid Regions of Peru and Chile and Their Contribution over Particulate Matter Concentration
A. Salvador, R. Arasa, B. Codina

Optimization Study of Outburst Prevention Measures for Tuzhu Coal Mine Based on Fixed Weight Clustering Analysis

Real Time Ambient Air Quality Status during Diwali Festival in Central, India
S. Nigam, N. Kumar, N. K. Mandal, B. Padma, S. Rao

Assessment of the Contribution of Road Runoffs to Surface Water Pollution in the New Juaben Municipality, Ghana

Call for Papers

Journal of Geoscience and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Environmental Protection
  - Air Pollution
  - Chemical Pollution
  - Climate Change
  - Disasters Management
  - Environmental Earth Sciences
  - Environmental Geology and Rehabilitation
  - Environmental Law and Policies
  - Environmental Risk
  - Global Environmental Protection Technology
  - Global Warming
  - Landfill Waste Management
  - Mineral Processing, Waste Management and Recycling
  - Nuclear Energy and Environmental Protection
  - Pollution Control and Technologies
  - Soil Environment and Soil Science in Other Disciplines
  - Sustainability of Resources and Environment
  - Waste Water Management and Aquaculture
  - Water Engineering

- Water Resources Management and Water Quality

- Geoscience
  - BioGeoMarketers and Their Significance for Astrogology and Astrobiology
  - Crystallography and Mineralogy
  - Education and Capacity Building in Geosciences
  - Endogenous, Exogenous Petrology and Geochemistry
  - Energy and Mineral Deposits
  - Geodynamics
  - Geothics
  - Geographic Information Science
  - Geological Collections and Museology
  - Hydrology and Hydrogeology
  - International Partnership in Geosciences
  - Medical and Forensic Geology
  - Meteorites and Planetary Geology
  - Natural Hazards
  - Paleontology
  - Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are referred through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

http://www.scirp.org/journal/gep  E-mail: gep@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
