Editor-in-Chief
Prof. Valentine Udoh James  Clarion University of Pennsylvania, USA

Editorial Board
Dr. Mukesh Singh Boori  Samara University, Russia
Dr. Riccardo Buocolieri  University of Salento, Italy
Prof. Jianmin Chen  Fudan University, China
Prof. Peter G. Flood  University of New England, Australia
Prof. Yehia Hafez  King Abdulaziz University, Saudi Arabia
Prof. Benedict Ihozor  Eastern Michigan University, USA
Prof. Sabah A. Ismail  University of Kirkuk, Iraq
Prof. M. A. Khalifa  Menoufia University, Egypt
Dr. Juan Ma  Fayetteville State University, USA
Dr. Amirhomayoun Saffarzadeh  Kyushu University, Japan
Prof. V. I. Solomatin  Russian Academy of Nature Science, Russia
Dr. Mustafa Din Subari  Universiti Teknologi Malaysia, Malaysia
Prof. Leiming Yin  Chinese Academy of Sciences, China
Dr. Xiaochun Zhang  Carnegie Institution for Science, USA
Prof. Qixing Zhou  Nankai University, China
# Table of Contents

## Volume 6   Number 11   November 2018

### Analysis on the Trend of Water Quality in Haihe River Basin from 2005 to 2017
H. C. Wang, D. T. Wang, X. S. Zhou.................................................................1

### Analysis of Tropospheric Ozone by Artificial Neural Network Approach in Beijing
M. A. Hassan, Z. Dong.....................................................................................8

### Groundwater Monitoring in the Gneisso-Basaltic Fractured Rock Aquiferous Formations of Kumba, Southwest Region Cameroon: Seasonal Variations in the Aqueous Geochemistry and Water Quality

### Comparative Study of Cooling under Shades of Some Forestry Tree Species with Respect to Ambient Temperatures
S. K. Gupta, J. Ram, H. Singh, P. Kumar........................................................................51

### The Effect of Different Artificial Soil on Urban Non-Point Source Pollution Reduction in the Artificial Rapid Infiltration System
J. F. Wu, L. R. Song, Q. Feng, J. Y. Luo, Z. X. Xue...............................................67

### Orographic Effects on Extreme Rainfall at Different Durations: A Case Study in Campania Region (Southern Italy)
P. Furcolo, A. Pelosi.........................................................................................77

### Streaming Potential and Zeta Potential Measurements in Porous Rocks
L. D. Thanh.....................................................................................................89

### Artificial, Natural, Underlying Factors that Affect the Arctic Climate
Z. Z. Weng.....................................................................................................101

### Modelling and Inversion of Ground Magnetic and Electromagnetic Data for Delineation of Subsurface Structures at Siloam Hot Spring in the Soutpansberg Basin
P. K. Nyabeze, O. Gwavava...............................................................................109

### Vulnerability Analysis of Land Instability Using Multi-Criteria Evaluation for Urban Sustainability: Methodological Overview and Case Study Assessment
A. Amasha.....................................................................................................124

### Improvement and Design of Transmitter Modifier Wind Cooling Protection for CINRAD/CB Weather Radar
Conventional and Fractal Variogram Based on Time—Space Analysis of Seismicity Distribution—Case Study: Algeria Seismicity (1673-2010)

M.-A. Aitouche, M. Djeddi

Role of Biochar Amendment on Soil Carbon Mineralization and Microbial Biomass

Y. M. Wang, M. Li

Thermodynamic Modeling of Uranium (VI) Reductive Immobilization in Groundwater of NPCC Sludge Storages (Novosibirsk, Russia)

O. L. Gaskova, A. E. Boguslavsky, A. V. Safonov
Journal of Geoscience and Environment Protection (GEP)

If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: gep@scirp.org
Journal of Geosciences and Environment Protection (GEP) is an international journal dedicated to the latest advancement of Geoscience and Environment Protection. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of Geoscience and Environment Protection. All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process.

Subject Coverage
This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Environmental Protection
  - Air Pollution
  - Chemical Pollution
  - Climate Change
  - Disasters Management
  - Environmental Earth Sciences
  - Environmental Geology and Rehabilitation
  - Environmental Law and Policies
  - Environmental Risk
  - Global Environmental Protection Technology
  - Global Warming
  - Landfill Waste Management
  - Mineral Processing, Waste Management and Recycling
  - Nuclear Energy and Environmental Protection
  - Pollution Control and Technologies
  - Soil Environment and Soil Science in Other Disciplines
  - Sustainability of Resources and Environment
  - Waste Water Management and Aquaculture
  - Water Engineering

- Geoscience
  - BioGeomarkers and Their Significance for Astrogeology and Astrobiology
  - Crystallography and Mineralogy
  - Education and Capacity Building in Geosciences
  - Endogenous, Exogenous Petrology and Geochemistry
  - Energy and Mineral Deposits
  - Geodynamics
  - Geosciences
  - Geographic Information Science
  - Geological Collections and Museology
  - Geophysics
  - Hydrology and Hydrogeology
  - International Partnership in Geosciences
  - Medical and Forensic Geology
  - Meteorites and Planetary Geology
  - Natural Hazards
  - Paleontology
  - Stratigraphy and Sedimentology

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the GEP.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail
http://www.scirp.org/journal/gep  E-mail: gep@scirp.org
What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
