IJCNS is an international refereed journal dedicated to the latest advancement of communications and network technologies. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editor-in-Chief
Prof. Boris S. Verkhovsky  New Jersey Institute of Technology, USA

Subject Coverage

This journal invites original research and review papers that address the following issues in wireless communications and networks. Topics of interest include, but are not limited to:

- Ad Hoc and Mesh Networks
- Coding, Detection and Modulation
- Cognitive Radio
- Communication Networks Architecture Design
- Communication Reliability and Privacy
- Communication Security and Information Assurance
- Cooperative Communications
- Embedded Distributed Systems
- Global Networks
- Heterogeneous Networking
- MIMO and OFDM Technologies
- Network Protocol, QoS and Congestion Control
- Network Survivability
- Next Generation Network Architectures
- Reconfigurable Networks
- Resource Management
- Satellite Communication
- Sensor Networks
- Simulation and Optimization Tools
- UWB Technologies
- Wave Propagation and Antenna Design
- Wireless Personal Communications

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the IJCNS.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
