# TABLE OF CONTENTS

**Volume 1  Number 3  November 2010**

## Recent Energy Balance of Earth

## Warming Power of CO₂ and H₂O: Correlations with Temperature Changes
P. C. Soares........................................................................................................................................102

## The Need to Regularise Activities of Illegal Small-Scale Mining in Ghana:
A Focus on the Tarkwa-Dunkwa Highway
J. S. Kuma, J. A. Yendaw................................................................................................................113

## Kernel Density Estimation of Tropical Cyclone Frequencies in the North Atlantic Basin
T. A. Joyner, R. V. Rohli....................................................................................................................121

## Geochemistry of Termite Hills as a Tool for Geochemical Exploration of Glass Sand in the Iraqi Western Desert
S. M. Awadh........................................................................................................................................130

## Pedoecological Regularities of Organic Carbon Retention in Estonian Mineral Soils
R. Kõlli, T. Köster, K. Kauer, I. Lemetti.............................................................................................139

## Ground Rupturing Due to Entrapped Air/Gas in the Unconfined Zone
M. Banerjee, V. P. Singh, H. N. Singh, D. Shankar, Sunjay, U. S. Singh........................................149

---

The figure on the front cover is from the article published in International Journal of Geosciences (IJG), 2010, Vol. 1, No. 3, pp. 102-112, by Paulo Cesar Soares.

International Journal of Geosciences (IJG) is an international refereed journal dedicated to the latest advancement of geosciences. The goal of this journal is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties.

Subject Coverage
All manuscripts submitted to IJG must be previously unpublished and may not be considered for publication elsewhere at any time during IJG’s review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. Topics to be covered by this journal include, but are not limited to:

- Atmosphere
- Biosphere
- Cartography
- Environmental Science
- Geodesy and Surveying
- Geography
- Geoinformatics (GIS)
- Geostatistics
- Hydrosphere
- Lithosphere or Geosphere
- NASA Earth Science Enterprise
- Pedosphere

We are also interested in: 1) Short Reports - 2 to 5 pages where the paper is intended to present either an original idea with theoretical treatment or preliminary data and results; 2) Book Reviews - Comments and critiques of recently published books in Geosciences.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
