# Table of Contents

**Volume 8  Number 9  September 2017**

- **A Study on Parallel Computation Based on 3D Forward Algorithm of Gravity**
  M. Wang, Y. M. Zheng, C. L. Yao
  
- **A Study on the VLF/LF Long Term Amplitude Oscillations Associated with Frequencies 37.5 kHz and 45.9 kHz Received at Keil Longwave Monitor, Keil, Germany**

- **To the Question about the Nature and Structure of Jupiter’s Magnetic Field**
  A. N. Dmitriev

- **A Comment on “A major Change in the Stratigraphy of the Santorini Volcano in Greece”**
  T. H. Druitt

- **Analyzing the Mara River Basin Behaviour through Rainfall-Runoff Modeling**
  A. M. Birundu, B. M. Mutua

- **Integrated Interpretation of Geophysical and Soil Geochemical Anomalies in Gold Exploration: Case of Kouremale, Southern Mali-West Africa**
  F. Tounkara, J. G. Chen, S. Keita

- **From Grinding Hollows to Information Communication Technology through Media in Selecting Prospective Fiancées: Evidence from Wasukuma Socio-Cultural Practices in Tanzania**
  C. B. Saanane, S. Faru

- **Growth, Duplication and Lateral Mutual Compressive Deformation of *Akouemma hemisphaerica* on the Seafloor of Okondja Basin at 2.2 Ga (Gabon)**
Stratigraphic Correlation between Subsurface Maastrichtian Digma Formation and Safra Unit from Outcrop Sections, Western Desert of Iraq

I. Q. Mohammed, F. A. Lawa

Determination of Structural and Geometrical Parameters of the Kribi-Campo Sedimentary Sub-Basin Using Gravity Data

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ijg@scirp.org
International Journal of Geosciences

ISSN: 2156-8359 (Print)    ISSN: 2156-8367 (Online)
http://www.scirp.org/journal/ijg

International Journal of Geosciences (IJG) is an international refereed journal dedicated to the latest advancement of geosciences. The goal of this journal is to keep a record of the state-of-the-art research and to promote study, research and improvement within its various specialties.

Editors-in-Chief
Prof. Jacques Bourgeois
Université Pierre et Marie Curie, Paris 6, France
Prof. Shuanggen Jin
Shanghai Astronomical Observatory, CAS, China

Subject Coverage
All manuscripts submitted to IJG must be previously unpublished and may not be considered for publication elsewhere at any time during IJG’s review period. Additionally, accepted ones will immediately appear online followed by printed in hard copy. Topics to be covered by this journal include, but are not limited to:

- Atmosphere
- Biosphere
- Cartography
- Climate Change
- Earth System Modelling
- Earthquake and Seismology
- Environmental Science
- Estuarine and Coasts
- Geochemistry
- Geodesy and Surveying
- Geographic Information System
- Geography
- Geo-Instrument Developments
- Geology
- Geomechanics
- Geomorphology and Surficial Process
- Geophysics
- Geostatistics
- Glaciology
- Hydrosphere
- Lithosphere or Geosphere
- Marine Resources
- Mineralogy
- NASA Earth Science Enterprise
- Oceanography
- Pedosphere
- Petrology
- Seismology
- Soil Science

We are also interested in: 1) Short Reports—2 to 5 pages where the paper is intended to present either an original idea with theoretical treatment or preliminary data and results; 2) Book Reviews—Comments and critiques of recently published books in Geosciences.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
