Editor-in-Chief
Prof. Richard J. Spontak  North Carolina State University, USA

Editorial Board
Dr. Rabin Bissessur  University of Prince Edward Island, Canada
Dr. Claudia Botelho  University of Minho, Portugal
Dr. Weiquan Cai  Wuhan University of Technology, China
Prof. Houyang Chen  State University of New York, USA
Prof. Yongping Chen  Southeast University, China
Prof. Nily Dan  Drexel University, USA
Prof. Ruey-An Doong  National Tsing Hua University, Chinese Taipei
Prof. M. Esther Gil-Alegre  Complutense University of Madrid, Spain
Prof. Chang-Sik Ha  Pusan National University, South Korea
Dr. Masoud Haghshenasfard  Isfahan University of Technology, Iran
Prof. Yongsheng Han  Chinese Academy of Sciences, China
Prof. Moon Suk Kim  Ajou University, South Korea
Dr. Sean X. Liu  Cal Poly Pomona, USA
Prof. Guanghui Ma  Chinese Academy of Sciences, China
Prof. Elena A. Markvicheva  Russian Academy of Sciences, Russia
Prof. Bouzid Menaa  Fluorotronics, Inc., USA
Prof. Melvin A. Pascall  Food Science and Technology, OSU, USA
Prof. Jordi Puiggali  Polytechnic University of Catalonia, Spain
Prof. Gustaaf Schoukens  Ghent University, Belgium
Prof. Laurent Simon  New Jersey Institute of Technology, USA
Prof. Lan Tighzert  University of Reims Champagne Ardenne, France
Prof. Juan José Valle-Delgado  Institute for Bioengineering of Catalonia (IBEC), Spain
Prof. Claude Verdier  University of Grenoble, France
Dr. Jinying Yuan  Tsinghua University, China
Prof. Changying Zhao  Shanghai Jiao Tong University, China
# Table of Contents

**Volume 5  Number 1  March 2015**

**Modeling the Rheological Characteristics of Flexible High-Yield Pulp-Fibre-Reinforced Bio-Based Nylon 11 Bio-Composite**
R. Cherizol, M. Sain, J. Tjong ................................................................................................................................. 1

**Preparation of Composite Particles Made of Biodegradable Polymer and a Few Additives with Phase Separation Followed by Drying-in-Liquid**
M. Kutsuwada, Y. Taguchi, M. Tanaka ..................................................................................................................... 11

**Comparative Study of Adsorption of Copper Ion onto Locally Developed and Commercial Chitosan**
S. A. Akolo, A. S. Kovo ........................................................................................................................................ 21

**Study the Removal of Fluoride from Aqueous Medium by Using Nano-Composites**
T. K. Rout, R. Verma, R. V. Dennis, S. Banerjee .................................................................................................... 38

A. Y. I. Rubaye, A. A. Abdulwahid, H. T. Abdulsahib .......................................................................................... 53

**Implementation of a Simulation Model of the Controlled Release of Molecular Species from Halloysite Nanotubes**
D. N. Elumalai, Y. Lvov, P. Derosa ......................................................................................................................... 74

The figure on the front cover is from the article published in *Journal of Encapsulation and Adsorption Sciences, 2015, Vol. 5, No. 1, pp. 53-73* by Ahmed Yahya Issa Rubaye, Ali Abdulrazzaq Abdulwahid and Hassan Thamir Abdulsahib.

DISCLAIMER OF LIABILITY

Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: jeas@scirp.org
Journal of Encapsulation and Adsorption Sciences (JEAS) is an international, specialized, English-language journal devoted to publication of original contributions concerning with the processes and technology adsorption and also encapsulation (nano-, micro…) for applications including among others: Biomedical and pharmaceutical applications with drug delivery systems (transdermal, oral), biomarkers, nanomedicine, nano-taggetants with fluorescent dyes encapsulated, theranostics, biomimetics...

Food technology, 
Cosmetics, 
Textiles, 
Biochemistry, 
Optics, 
Photonics, 
Environment, energy storage, thermal insulation and reinforcement materials.

It is an open-access, peer-reviewed journal describing scientific and technological advances that cover the basic sciences, engineering aspects and applied technology of molecules (proteins, enzymes, food, fragrance, gas…) as well as other diverse materials encapsulation and adsorption with preparative manipulation and related materials properties. The journal publishes the highest quality original full articles, communications, notes, reviews, special issues and books, covering both the experimental and theoretical aspects including but not limited to the following materials (as bulk, films, nanoparticles), studies and techniques:

- Adsorption
- Capsulation Process and Characterization
- Capsulation Techniques Processes and Instrumentation
- Catalysis
- Coating Process of Encapsulated Materials
- Coatings
- Colloids and Formulations
- Controlled Release
- Encapsulation in Layer-by-Layer Polyelectrolyte Films
- Encapsulation in the Food, Cosmetics and Biomedical Fields among others
- Hydrogels, Polymers, (Sol-Gel) Glasses, Ceramics, Inorganic-Organic Hybrid Materials, Porous Materials and Metal-Organic Framework as Bulk or Films, Multi-Functional Particles, Nanocapsules, and any other host matrices and materials supports of interest.
- Molecular Interactions Studies, Surface Properties
- Technical Processes and Analytical Methods

Papers are acceptable provided they report important findings, novel insights or useful techniques within the scope of the journal. All manuscript must be prepared in English, and are subjected to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by prints in hard copy.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refered through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
