## Table of Contents

**Volume 7  Number 10  September 2016**

### Variability in the Levels of BTEX at a Pollution Hotspot in New Delhi, India
M. Gaur, R. Singh, A. Shukla.................................................................1245

### Evaluating Market Benefits of Transportation Tunnels—The Carmel Tunnels as a Case Study
O. Ayalon, L. Shmueli, S. F. Koren, M. Z. Zerbib.................................................................1259

### Household Energy Demand and Its Impact on the Ecological Capital of Nech Sar National Park, Ethiopia
M. M. Alemu.........................................................................................................................1273

### Biomarkers and Ultra Structural Evaluation of Marine Pollution by Polycyclic Aromatic Hydrocarbons

### Bringing Rain to the Land: Rainfall Simulation as a Participatory Teaching Aid to Understanding Erosion
C. K. Birkett, T. Hill, K. D. Zuma, T. M. Everson..................................................................1305

### The Importance of Spatiotemporal Heterogeneity for Biodiversity in Forest—Heathland Mosaics and Implications for Heathland Conservation
S. Mobaied, J.-J. Geoffroy, N. Machon..........................................................................................1317

### Visual Impact Assessment: Where Have We Come from and Where Are We Going?
R. C. Smardon......................................................................................................................1333

### Suction Cup Samplers for Estimating Nitrate-Nitrogen in Soil Water in Irrigated Sugarbeet Production
J. D. Jabro, W. B. Stevens, W. M. Iversen, B. L. Allen, U. M. Sainju..................................................1342

### Portrait and Classification of Individual Haze Particulates
C. Y. Li, M. S. Ding, Y. Yang, P. C. Zhang, Y. Li, Y. C. Wang,
L. C. Huang, P. J. Yang, M. Wang, X. Sha, Y. M. Xu, C. W. Guo, Z. W. Shan..................................................1355

### The Evolving Roles of Landscaping in Campus Space Management: Ekiti State University, Ado-Ekiti, Nigeria in Focus
O. J. Adekunle, J. O. Basorun......................................................................................................1380
Polycyclic Aromatic Hydrocarbons and Selected Heavy Metals in Some Oil Polluted Sites in Delta State Nigeria

E. O. Nwaichi, L. C. Chuku, E. Ighoavwogan………………………………………………………………………………………………………………1389

Environmental Studies on the Aqaba Gulf Coastal Waters during 2011-2013

A. M. Abdel-Halim, M. A. Aly-Eldeen, L. M. A. Fattah, M. A. Fahmy,
E. M. Abo-El-Khair, A. M. Khaled, A. A. El-Soud, M. A. Shreadah…………………………………………………………………………..1411
Call for Papers

Journal of Environmental Protection (JEP)

ISSN: 2152-2197 (Print)  ISSN: 2152-2219 (Online)
http://www.scirp.org/journal/jep

JEP is an international refereed journal dedicated to the latest advancement of Environmental Protection. The goal of this journal is to keep a record of the state-of-the-art research and promote the research work in these fast moving areas.

Editors-in-Chief

Prof. Thangarasu Pandiyam
National Autonomous University of Mexico (UNAM), Mexico

Prof. Qingren Wang
University of Florida, USA

Subject Coverage

This journal invites original research and review papers that address the following issues in Environmental Protection. Topics of interest include, but are not limited to:

- **Air pollution and air quality**
  - Air pollution monitoring and modeling
  - Air pollution prevention and control
  - Air quality measurement and management
  - Sources of air pollution
  - Urban/indoor air pollution and control

- **Ecosystem restoration, toxicology and sustainability**
  - Ecosystem restoration
  - Environmental toxicology
  - Greenhouse gas emission monitoring and solutions
  - Hazardous materials management
  - Radiation safety in atomic industry
  - Solid waste management
  - Sustainable development of environment and ecosystem

- **Environmental pollution and public health**
  - Chemical pollutants and its effects on health
  - Effects of air pollution on public health
  - Food and drug safety control
  - Global climate changes and human health
  - Land pollution and its effects on health

- **Hydrology and water quality**
  - Ground water pollution control
  - Hydrobiology and water pollution
  - Methods of monitoring water quality
  - Modeling and measuring of water pollution

- **Wastewater treatment and utilization**
  - New wastewater treatment technologies
  - New water purification technologies
  - Purification of drinking-water supplies
  - Treatment, disposal and discharge of wastewater

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the JEP.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

http://www.scirp.org/journal/jep  E-mail: jep@scirp.org
**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
