Journal of Modern Physics (JMP) is an international journal dedicated to the latest advancement of modern physics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of modern physics.

Editor-in-Chief
Prof. Victor Yashnikov  Russian Academy of Sciences, Russia

Executive-Editor-in-Chief
Prof. Marko Markov  Research International, Buffalo Office, USA

Subject Coverage

Journal of Modern Physics publishes original papers including but not limited to the following fields:

Biophysics and Medical Physics  Mathematical Physics
Complex Systems Physics  Mechanical Response of Solids and Structures
Computational Physics  New Materials: Micro and Nano-Mechanics and Homogeneization
Condensed Matter Physics  Non-Equilibrium Thermodynamics and Statistical Mechanics
Cosmology and Early Universe  Nuclear Science and Engineering
Earth and Planetary Sciences  Physics of Nanostructures
General Relativity  Plasma Physics
High Energy Astrophysics  Quantum Mechanical Developments
Instrumentation and Measurement  Quantum Theory
Interdisciplinary Physics  Relativistic Astrophysics
Materials Sciences and Technology  Theoretical High Energy Physics

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
