# TABLE OF CONTENTS

**Volume 5  Number 3**  
**February 2014**

**Combined Environmental and Magnetic Effects on Elementary Matter:**  
*A Quantum Field Theory Description of Fermion Epigenetics*  
E. Spallucci, C. Verzegnassi .......................................................... 99

**Laplace Transform Method for Unsteady Thin Film Flow of a Second Grade Fluid through a Porous Medium**  
M. Ali, M. Awais ............................................................................. 103

**Cluster Model of Formation of Subnuclear and Subatomic Objects**  
E. E. Lin ......................................................................................... 107

**Computational Study on Melting Process Using Smoothed Particle Hydrodynamics**  
Suprijadi, F. Faizal, R. R. Septiawan ............................................. 112

**IUPAC Periodic Table Quantum Mechanics Consistent**  
B. Schaeffer .................................................................................. 117

**Generation of Short Wavelength in Up-Conversion of Tm$^{+3}$ Doped Fluoride Glass and Its Application in Fiber Lasers**  
R. M. El-Agmy, N. M. Al-Hosiny, S. Abdallah, M. S. Abdel-Aal .......................................................... 123

**Design Verification Model of Rubidium Frequency Standard for Space**  
B. Ghosal, G. M. Saxena ................................................................. 128

---

The figure on the front cover is from the article published in *Journal of Modern Physics*, 2014, Vol. 5, No. 3, pp. 112-116 by Suprijadi, Ferry Faizal and Reza Rendian Septiawan.

Journal of Modern Physics

ISSN Print: 2153-1196    ISSN Online: 2153-120X
http://www.scirp.org/journal/jmp

Journal of Modern Physics (JMP) is an international journal dedicated to the latest advancement of modern physics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of modern physics.

Editors-in-Chief
Prof. Moshe Gai    University of Connecticut, USA
Prof. Yang-Hui He  City University, UK

Executive Editor-in-Chief
Prof. Marko Markov  Research International, Buffalo Office, USA

Subject Coverage
Journal of Modern Physics publishes original papers including but not limited to the following fields:

Biophysics and Medical Physics
Complex Systems Physics
Computational Physics
Condensed Matter Physics
Cosmology and Early Universe
Earth and Planetary Sciences
General Relativity
High Energy Astrophysics
High Energy/Accelerator Physics
Instrumentation and Measurement
Interdisciplinary Physics
Materials Sciences and Technology
Mathematical Physics
Mechanical Response of Solids and Structures
New Materials: Micro and Nano-Mechanics and Homogenization
Non-Equilibrium Thermodynamics and Statistical Mechanics
Nuclear Science and Engineering
Optics
Physics of Nanostructures
Plasma Physics
Quantum Mechanical Developments
Quantum Theory
Relativistic Astrophysics
String Theory
Superconducting Physics
Theoretical High Energy Physics
Thermology

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
