Table of Contents

Volume 7 Number 2 February 2019

HCFL Lamp Only Lights Up under Coexistence of Cathode and Anode in Ar Gas Space for Half Cycle of AC Driving Circuit
L. Ozawa.................................................................1

Fault Waveform Regenerator and Its Digital Closed-Loop Modification Technique
X. M. Sun........................................................................14

Homer’s Feasibility Analysis of a Hybrid System with a Grid Connection Option for the Mauritanian Northern Coast
I. Youm........................................................................27

Enhancement of Wind Energy Conversion Using Axial Flux Generator
I. Al-Bahadly, S. C. Neppalli......................................................43

Design of a Hybrid System for Rural Area Electricity Supply in Comoros
K. M. Aboudou, M. El Ganaoui..................................................59
Journal of Power and Energy Engineering (JPEE)

Journal of Power and Energy Engineering

ISSN Print: 2327-588X  ISSN Online: 2327-5901
http://www.scirp.org/journal/jpee

Journal of Power and Energy Engineering (JPEE) is an international journal dedicated to the latest advancement of power and energy engineering. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of power and energy engineering.

Editor-in-Chief
Prof. Elias K. Stefanakos
University of South Florida, USA

Editorial Board
Dr. Roberto Capata
Dr. Wei-Hsin Chen
Dr. Chun-Hu Cheng
Dr. Smith Elaisa-aard
Prof. D. Yogi Goswami
Prof. Zhongjie Huan
Dr. Freddie Liswaniso Inambao
Prof. Nnenesi A. Kgabi

Prof. Ching-Fuh Lin
Prof. Rodolfo Dufo López
Prof. Elham B. Makram
Prof. George Papadakis
Dr. Elias Papanicolaou
Dr. Raul Rabinovici
Prof. M. Ramamoorthy
Dr. Manuel Romero

Dr. Ravi S. Srinivasan
Dr. Vittorio Verda
Prof. Valery Vodovozov
Prof. Nikolai Voropai
Prof. Chao Xu
Dr. Wenxian Yang
Dr. Xiaowei Zhou

Subject Coverage
All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

1. Power Generation-Conventional and Renewable
   Bio-energy technologies, process and utilization
   Environmentally-friendly technologies for power generation
   Geothermal and tidal wave energy
   Hydropower technologies and applications
   New technologies and design for energy efficiency
   New technologies for minimizing CO2 generation
   Other sustainable energy
   Photovoltaic for solar power applications
   Safe nuclear energy generation and utilization
   Thermal power technologies and applications
   Waste products as fuel
   Wind power generation and utilization

2. Power System Management
   Application of wide area measurement system (WAMS)
   Control strategies for modern power system stability
   Integrated substation automation technologies
   Load modeling, estimation and forecast
   Modeling and simulation of large power systems
   Online monitoring and fault diagnosis system
   Power system analysis and optimization
   Power system management technologies

   Power system monitoring and mitigation technologies
   Power system planning and operation

3. Power Transmission and Distribution
   Advanced distribution and SCADA technologies
   Electromagnetic analysis in power systems
   Electromagnetic compatibility in power systems
   Electromagnetic transient in high voltage power systems
   HVDC and flexible AC transmission system (FACTS)
   Insulation condition monitoring in power systems
   Over-voltage, lightning protection and grounding
   Plasma physics and the pulsed power technology
   Ultra High Voltage (UHV) technologies

4. Smart Grid Technologies
   Agent-based Computational Economics for Grid
   Agent-based mechanisms for Grid markets
   Agent-based simulation of Grid environments and markets
   Automated negotiation for Grid resource allocation
   Engineering of Grid markets and Grid architectures
   Modeling of Grid environments
   Resource allocation in Grid scenarios using agent-based approaches
   Technical research on future application domains

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
The submitted manuscript should not have been previously published in any form and must not be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All paper are refereed through a peer process. For more details about the submissions, please access the website.

Website and E-Mail

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
