Dr. Mitsuhiro Kimura Hosei University, Japan
Prof. Chang-Hwan Lee Dongguk University, South Korea
Prof. Anthony F. Norcio University of Maryland, USA
Prof. Janche Sang Cleveland State University, USA
Prof. Midthe V. Srinath Mahendra Engineering College, India
Dr. Eliot Winer The Iowa State University, USA
Prof. Xin Yuan Florida State University, USA
# Table of Contents

**Volume 7  Number 10  September 2014**

**A Framework for Mobile Education System for Higher Institutions in Nigeria**  
B. Souley, D. E. Aniobi ...........................................................................................................791

**Large Interactive Media Display and Its Influence on Transformation Urban Spaces from Neglecting to Action: The Case of Al-Thaqafa Street in Amman City**  
W. Al-Azhari, L. Haddad, M. Al Absi ..................................................................................817

**Process Evaluation Based on Meeting Quality of Requirement Analysis Phase in Software Development Projects**  
M. Obana, N. Hanakawa .......................................................................................................828

**Combining Geographic Information Systems for Transportation and Mixed Integer Linear Programming in Facility Location-Allocation Problems**  
S. M. S. Mapa, R. da Silva Lima ..........................................................................................844

**Imperceptible and Robust DWT-SVD-Based Digital Audio Watermarking Algorithm**  
K. A. Darabkh .....................................................................................................................859

**Overlapping Community Detection in Dynamic Networks**  
N. Aston, J. Hertzler, W. Hu ...............................................................................................872

**The Challenge of Implementing Information Security Standards in Small and Medium e-Business Enterprises**  
J. Alqatawna .......................................................................................................................883

DISCLAIMER OF LIABILITY

Statements and opinions expressed in the articles and communications are those of the individual contributors and not the statements and opinion of Scientific Research Publishing, Inc. We assume no responsibility or liability for any damage or injury to persons or property arising out of the use of any materials, instructions, methods or ideas contained herein. We expressly disclaim any implied warranties of merchantability or fitness for a particular purpose. If expert assistance is required, the services of a competent professional person should be sought.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: jsea@scirp.org
Journal of Software Engineering and Applications (JSEA)

ISSN 1945-3116 (print)  ISSN 1945-3124 (online)
http://www.scirp.org/journal/jsea

JSEA publishes four categories of original technical articles: papers, communications, reviews, and discussions. Papers are well-documented final reports of research projects. Communications are shorter and contain noteworthy items of technical interest or ideas required rapid publication. Reviews are synoptic papers on a subject of general interest, with ample literature references, and written for readers with widely varying background. Discussions on published reports, with author rebuttals, form the fourth category of JSEA publications.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

Automated Software Design and Synthesis
Automated Software Specification
Component-Based Software Engineering
Computer-Supported Cooperative Work
Formal Methods
Knowledge Acquisition
Object-Oriented Technology
Patterns and Frameworks
Process and Workflow Management
Program Understanding Issues
Programming Languages and Software Engineering
Reflection and Metadata Approaches
Reliability and Fault Tolerance
Requirements Engineering
Reverse Engineering
Software Architecture
Software Design Methods
Software Domain Modeling and Meta-Modeling
Software Engineering Decision Support
Software Engineering Education
Software Maintenance and Evolution
Software Process Modeling
Software Quality
Software Reuse
Software Testing
Tutoring, Help, Documentation Systems

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the JSEA.

Notes for Prospective Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
