Editor-in-Chief

Prof. Yashwant K. Malaiya  Colorado State University, USA

Editorial Board

Dr. Nicoletta Adamo-Villani  Purdue University, USA
Prof. Kuang-Hua Chang  The University of Oklahoma, USA
Dr. Calvin Yu-Chian Chen  China Medical University, China
Dr. Kim-Kwang Raymond Choo  University of South Australia, Australia
Prof. Steven A. Demurjian  The University of Connecticut, USA
Dr. Phan H. Giang  George Mason University, USA
Dr. Zonghua Gu  Zhejiang University, China
Dr. Nabil Hameurlain  University of Pau, France
Dr. Wolfgang Herzner  Austrian Institute of Technology, Austria
Dr. Jacky Wai Keung  City University of Hong Kong, China
Dr. Mitsuhiro Kimura  Hosei University, Japan
Prof. Chang-Hwan Lee  Dongguk University, South Korea
Prof. Anthony F. Norcio  University of Maryland, USA
Dr. Indrajit Saha  Institute of Informatics and Telematics (IIT), National Research Council (CNR), Italy
Prof. Janche Sang  Cleveland State University, USA
Prof. Midthe V. Srinath  Mahendra Engineering College, India
Dr. Eliot Winer  The Iowa State University, USA
Prof. Xin Yuan  Florida State University, USA
# Table of Contents

**Volume 9  Number 5  May 2016**

**Awareness and Usage of Computer and Internet among Medical Faculties’ Students at the University of Jordan**
T. Almarabeh, L. Rajab, Y. Kh. Majdalawi.......................................................................................................................147

**An Adaptive Video-on-Demand Framework for Multimedia Cross-Platform Cloud Services**
C.-H. Hsieh, C.-H. Ke, C. Lee...............................................................................................................................................155

**First Approach to a Framework for Regional Road-Traffic Accidents Reduction System**
V. Araya, N. Espada, M. Tosini, L. Leiva........................................................................................................................175

**A Generic Graph Model for WCET Analysis of Multi-Core Concurrent Applications**
R. Mittermayr, J. Blieberger.............................................................................................................................................182

**Parallelization of Diagnostics for Climate Model Development**
J. McEnerney, S. Ames, C. Christensen, C. Doutriaux, T. Hoang, J. Painter, B. Smith, Z. Shaheen, D. Williams........199

**A Promising Initial Population Based Genetic Algorithm for Job Shop Scheduling Problem**
V. S. Jorapur, V. S. Puranik, A. S. Deshpande, M. Sharma.................................................................................................208

**Faculty Members’ Attitudes and Perceptions towards E-Publishing at the University of Jordan**
M. Al-Shboul......................................................................................................................................................................215

**An Approach to Parallel Simulation of Ordinary Differential Equations**
J. D. Carl, G. Biswas..........................................................................................................................................................250

---

The figure on the front cover is from the article published in Journal of Software Engineering and Applications, 2016, Vol. 9, No. 5, pp. 155-174 by Chao-Hsien Hsieh, Chih-Horng Ke and Chiang Lee.

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
