University of South Florida, USA
## TABLE OF CONTENTS

**Volume 3**  
**Number 2**  
**June 2013**

Enhanced Biohydrogen Production by Accelerating the Hydrolysis of Macromolecular Components of Waste Activated Sludge Using TiO₂ Photocatalysis as a Pretreatment  
D. W. Li, Y. X. Zhao, Q. H. Wang, Y. N. Yang, Z. Y. Zhang ................................................................. 155

Estimation of Ion Beam Trajectories for a Slot Aperture Accelerator of Long-Pulse Ion Source in Neutral Beam Injector  
D.-H. Chang ............................................................................................................................................. 163

Modelling Absorption Capacity Performance of Hygienic Product  
S. Sayeb, M. B. Hassen, F. Sakli ............................................................................................................. 169

“We Are Only as Strong as We Are United, as Weak as We Are Divided” a Dynamic Analysis of the Peer Support Networks in the Harry Potter Books  
G. Bossaert, N. Meidert ............................................................................................................................. 174

ROC Analysis in Radiotherapy: A TCP Model-Based Test  
M. M. Santos, U. P. C. Neves .................................................................................................................. 186

Variation of Radiation Emission with Argon Gas Pressure in UM Plasma Focus with the Hollow Anode  
M. Z. Khan, Y. S. Ling, W. C. San ........................................................................................................... 194

Modified Adomian Techniques Applied to Non-Linear Volterra Integral Equations  
H. H. Ali, F. Abdelwahid ....................................................................................................................... 202

Phytoremediation Dynamic Model as an Assessment Tool in the Environmental Management  
R. R. Canales-Pastrana, M. Paredes ........................................................................................................ 208

Mean-Field Solution of a Mixed Spin-3/2 and Spin-2 Ising Ferrimagnetic System with Different Single-Ion Anisotropies  
F. Abubrig .............................................................................................................................................. 218

Assessment of the Direct Sun-Light on Rural Road Network through Solar Radiation Analysis Using GIS  
C. Chalkias, A. Faka, K. Kalogeropoulos ................................................................................................. 224

The Limnology of Ohana Lake, a Potential Manmade Aquaculture System in Nigeria  
P. O. Ajah .................................................................................................................................................. 232

Existence and Uniqueness of Positive (Almost) Periodic Solutions for a Neutral Multi-Species Logarithmic Population Model with Multiple Delays and Impulses  
Z. G. Luo, J. H. Huang, L. P. Luo, B. X. Dai ............................................................................................ 247

---

The figure on the front cover is from the article published in Open Journal of Applied Sciences, 2013, Vol. 3, No. 2, pp. 224-231 by Christos Chalkias, *et al.*

Open Journal of Applied Sciences (OJAppS) is an international peer-reviewed, open-access journal publishing in English original research studies, reviews in diverse areas of applied sciences. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in applied sciences and to keep a record of the state-of-the-art research in related areas.

Subject Coverage
The journal publishes original papers including but not limited to the following fields:

- Applied Acoustics
- Applied Behavioral Science
- Applied Biochemistry
- Applied Biology
- Applied Catalysis
- Applied Chemistry
- Applied Climatology
- Applied Cognitive Psychology
- Applied Crystallography
- Applied Ecology
- Applied Econometrics
- Applied Economics
- Applied Electrochemistry
- Applied Entomology
- Applied Ergonomics
- Applied Finance
- Applied Genetics
- Applied Geochemistry
- Applied Geography
- Applied Geomatics
- Applied Geophysics
- Applied Gerontology
- Applied Ichthyology
- Applied Immunology
- Applied Intelligence
- Applied Linguistics
- Applied Mathematics
- Applied Mechanics
- Applied Microbiology
- Applied Nanoscience
- Applied Neurobiology
- Applied Ocean Research
- Applied Pathology
- Applied Pharmacology
- Applied Philosophy
- Applied Physics
- Applied Physiology
- Applied Polymer Science
- Applied Psychology
- Applied Sociology
- Applied Spectroscopy
- Applied Surface Science
- Applied Toxicology
- Applied Vegetation Science
- Mathematical Methods in Applied Sciences
- Mathematical Models in Applied Sciences

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submission, please access the website.
