Table of Contents

Volume 8 Number 1 January 2018

Water Use of Juvenile Live Oak (Quercus virginiana) Trees over Five Years in a Humid Climate
R. C. Beeson, H. T. T. Duong, R. Kjelgren........................................................................................................1

Hemicellulose-Based Hydrogels Present Status and Application Prospects: A Brief Review
L. S. Hu, M. H. Du, J. P. Zhang.........................................................................................................................15

Floral Species Diversity and Carbon Stocks of Protected Forest Ecosystem at UENR’s Bat Sanctuary, Sunyani, Ghana
N. Owusu-Prempeh, O. O. Antobre, T. Agyei..................................................................................................29

Stand Structure, Allometric Equations, Biomass and Carbon Sequestration Capacity of Acacia mangium Wild. (Mimosaceae) in Côte d’Ivoire
S. Traoré, A. N. Djomo, A. K. N’guessan, B. Coulibaly, A. Ahoba, G. M. Gnahoua, É. K. N’guessan,
C. Y. Adou YaoJ. K. N’Dja, N. Z. Guédé......................................................................................................42

Quantitative Analysis Method of the Tea Saponin

Evaluating the Conservation Efforts of Multi-Projects Using Remote Sensing and Light Use Efficiency Model: A Case of Nyungwe Forest National Park, Rwanda
E. Rutebuka, L. X. Zhang, E. F. Asamoah, E. Rukundo, A. William..................................................................68

Decomposition of Eucalyptus sp. and Pinus taeda Harvest Residues under Controlled Temperature and Moisture Conditions
G. Sánchez, A. del Pino, J. Hernández...........................................................................................................87

Influence of Temperature, Moisture, and Light Conditions on the Germination of Seeds of Erythronium japonicum Decne
Y. Kanazawa, J. Abe, S. Kobayashi, K. Shibuya, K. Suzuki.............................................................................105

Argentinian Yungas Forest Fragmentation: Effects on Aboveground Biomass, Microclimate and Carbon Storage
S. Manrique, P. Vacaflor, N. Cruz..................................................................................................................117

Open Journal of Forestry

ISSN 2163-0429 (Print)  ISSN 2163-0437 (Online)
http://www.scirp.org/journal/ojf

Open Journal of Forestry (OJF) is an international journal dedicated to the latest advancement of forestry. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of forestry.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copy. The journal publishes original papers including but not limited to the following fields:

- Carbon and Biomass Assessment
- Cultivation of Economic Plants
- Economic Management of Forest Resources
- Forest Botany
- Forest Ecology
- Forest Entomology
- Forest Environmentology
- Forest Fire/Wildfire
- Forest Genetics and Plant Breeding
- Forest Management Science
- Forest Operation
- Forest Pathology
- Forest Pest Control
- Forest Policy Analysis
- Forest Protection
- Forest Resource Statistics
- Forestry Economics and Management
- Forestry Projects
- Gardening
- Human Dimensions of Forestry
- Land Resource Science
- Plant Nutrition
- Plant Physiology
- Silviculture
- Soil Fertilizer Science
- Urban Forestry
- Wildlife Conservation and Management

We are also interested in: 1) Short Reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book Reviews—Comments and critiques.

Notes for Intending Authors

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

Website and E-Mail

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
