## TABLE OF CONTENTS

**Volume 3  Number 5  October 2013**

**Generalized Estimating Equations for Repeated Measures Logistic Regression in Mosquito Dose-Response**  
G. Otieno, G. A. Waititu, D. Salifu ................................................................. 293

**An Investigation of the Effect of the Swamping Phenomenon on Several Block Procedures for Multiple Outliers in Univariate Samples**  
T. W. Woolley .......................................................... 299

**A Class of Truncated Binomial Lifetime Distributions**  
S. H. Alkarni .............................................................. 305

**Effect of Correlation Level on the Use of Auxiliary Variable in Double Sampling for Regression Estimation**  
D. A. Agunbiade, P. I. Ogunyinka .......................................................... 312

**Some Additional Moment Conditions for a Dynamic Count Panel Data Model with Predetermined Explanatory Variables**  
Y. Kitazawa .......................................................... 319

**Functional Analysis of Chemometric Data**  
A. M. Aguilera, M. Escabias, M. J. Valderrama, M. C. Aguilera-Morillo .......................................................... 334

**Aggregating Density Estimators: An Empirical Study**  
M. Bourel, B. Ghattas .......................................................... 344

**High Dimensional Dataset Compression Using Principal Components**  

**Characterization of Negative Exponential Distribution through Expectation**  
M. Bhatt B .......................................................... 367

**Multiple Imputation of Missing Data: A Simulation Study on a Binary Response**  
J. Hardt, M. Herke, T. Brian, W. Laubach .......................................................... 370

**Forecasting Realized Volatility Using Subsample Averaging**  
H. Y. Huang, T.-H. Lee .......................................................... 379

---

The figure on the front cover is from the article published in Open Journal of Statistics, 2013, Vol. 3, No. 5, pp. 344-355 by Mathias Bourel and Badih Ghattas.

PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: ojs@scirp.org
Open Journal of Statistics (OJS) is an international journal dedicated to the latest advancement of statistics. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of statistics.

Editor-in-Chief
Prof. Qihua Wang
Chinese Academy of Sciences, China

Editorial Board
Prof. Ana M. Aguiler
Prof. Essam K. Al-Hussaini
Prof. Ernie B. Barrios
Prof. Alexander V. Bulinski
Prof. Kambiz Farahmand
Prof. Junsoo Lee
Prof. Tae-Hyow Lee
Dr. Qizhai Li
Dr. Xuwen Lu
Prof. Thu Pham-Gia
Dr. Gengsheng Qin
Prof. Kalyan Raman
Prof. Mohammad Z. Raqab
Dr. Jose Antonio Roldán-Nofuentes
Prof. Sunil K. Sapra
Prof. Siva Sivaganesan
Dr. Xinyuan Song
Dr. Zheng Su
Prof. Jianguo Sun
Prof. Aida Toma
Prof. Vladimir V. Ulyanov
Dr. Florin Vaida
Dr. Haiyan Wang
Prof. Augustine Chi Mou Wong
Dr. Liqing Yan
Dr. Feng Zeng
Dr. Hongmei Zhang
Dr. Jin-Ting Zhang
Dr. Yichuan Zhao
Dr. Wang Zhou
Prof. Xiao-Hua Zhou

Subject Coverage
This journal invites original research and review papers that address the following issues in statistics. Topics of interest include, but are not limited to:

- Actuarial science
- Applied information economics
- Asymptotic statistics
- Bayesian statistics
- Biostatistics
- Business statistics
- Causal inference
- Chemometrics
- Computational statistics
- Data mining
- Decision theory
- Demography
- Descriptive statistics
- Design of experiments
- Econometrics
- Energy statistics
- Engineering statistics
- Epidemiology
- Estimation theory
- Geographic information systems
- Graphical models and related theory
- High dimensional data analysis
- Image processing
- Multivariate analysis
- Non-parametric statistics
- Parametric statistics
- Psychological statistics
- Regression analysis
- Reliability
- Reliability engineering
- Sample survey
- Sampling theory
- Semiparametric statistics
- Social statistics
- Statistical analysis with complex data
- Statistical computing
- Statistical inference
- Statistical methods
- Survival analysis
- Time series analysis

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the OJS.

Notes for Intending Authors
Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.
