# Table of Contents

**Volume 8  Number 3  August 2018**

**Thermodynamic, Structural, Surface and Transport Properties of In-Tl Liquid Alloy at Different Temperatures**
91

**On the Isotope-Like Effect for High-T<sub>c</sub> Superconductors in the Scenario of 2-Phonon Exchange Mechanism for Pairing**
G. P. Malik
109

**Phonon Mediated Electron-Electron Scattering in Metals**
V. Palenskis, E. Žitkevičius
115

**A Model of Dark Matter and Dark Energy Based on Relativizing Newton’s Physics**
R. Suleiman
130
World Journal of Condensed Matter Physics (WJCMP)

Call for Papers

World Journal of Condensed Matter Physics (WJCMP)

ISSN 2160-6919 (print)    ISSN 2160-6927 (online)
http://www.scirp.org/journal/wjcmp

World Journal of Condensed Matter Physics (WJCMP) covers the whole of condensed matter physics including soft condensed matter and nanostructures. Papers may report experimental, theoretical and simulation studies. Note that papers must contain fundamental condensed matter science: papers reporting methods of materials preparation or properties of materials without novel condensed matter content will not be accepted.

All the manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will immediately appear online followed by printed hard copies. The journal publishes original papers including but not limited to the following fields:

Correlated Electrons
Dielectrics and Ferroelectrics
Electronic Structure
Liquids, Soft Matter and Biological Physics
Magnetism and Magnetic Materials
Nanostructures and Nanoelectronics
Semiconductors
Solid Structure and Lattice Dynamics
Superconductors and Metals
Surface, Interface and Atomic-Scale Science

We are also interested in short papers (letters) that clearly address a specific problem, and short survey or position papers that sketch the results or problems on a specific topic. Authors of selected short papers would be invited to write a regular paper on the same topic for future issues of the WJCMP.

**What is SCIRP?**

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

**What is Open Access?**

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
