PRODUCTION INFORMATION

For manuscripts that have been accepted for publication, please contact:
E-mail: wjv@scirp.org
World Journal of Vaccines (WJV) is an international journal dedicated to the latest advancement of vaccines. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of ordered algebraic vaccines.

**Subject Coverage**

This journal invites original research and review papers that address the following issues. Topics of interest include, but are not limited to:

- Adjuvants
- Autoimmune Disease
- Bacteriology
- Cancer Immunotherapy
- Epidemiology
- Immunology
- Immunomodulators
- Immunopathology
- Immunopharmacology
- Parasitology
- Virology

We are also interested in: 1) Short Reports—2 to 5 pages where the paper is intended to present either an original idea with theoretical treatment or preliminary data and results; 2) Book Reviews—Comments and critiques of recently published books in the vaccine field; 3) Review articles in areas of potential interest to the readership of WJV.

**Notes for Intending Authors**

Submitted papers should not have been previously published nor be currently under consideration for publication elsewhere. Paper submission will be handled electronically through the website. All papers are refereed through a peer review process. For more details about the submissions, please access the website.

What is SCIRP?
Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science, by delivering superior scientific publications and scientific information solution provider that enable advancement in scientific research.

What is Open Access?
All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, world-wide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

• High visibility for maximum global exposure with open access publishing model
• Rigorous peer review of research papers
• Prompt faster publication with less cost
• Guaranteed targeted, multidisciplinary audience
